# THE SAN FRANCISCO UNIFIED SCHOOL DISTRICT

Dr. Herbert C. Clish.....Superintendent of Schools

Watt A. Long.....Associate Supt.-in charge of Instruction

O. A. Adams.....Asst. Supt. Adult and Vocational Education

E. S. Anderson.....Principal.....Samuel Gompers Trades School

K. L. Dragoo.....Program Director KALW

Ken Nielsen.....Technical Director KALW

KALW Location Samuel Gompers Trades School
22nd & Bartlett Streets

Telephone - Atwater 2-6042 San Francisco 10,Calif.

KALW is the FM Educational Radio Station owned and operated by the San Francisco Unified School District used as a facility for applying radio as a learning aid, for adult education and as a training station for commercial personnel and teachers.

# RADIO NEWS FOR OCT. 1948

## IN-SERVICE TRAINING

The two In-service training classes in "Utilization of Radio" (Ed. 341) and "Programming", (Ed 341-A) have started and are filled to capacity for the Fall Semester. Teachers wishing to take either course during the Spring Semester should register early.

The programming class invites the tolerance of fellow teachers during initial program efforts in schools.

## SAN FRANCISCO SOUNDS RECORD

The KALW Mobile recording truck is busy recording typical San Francisco sounds for a special record to be used in the third grade of elementary schools in conjunction with the study of San Francisco.

Sounds of the cable cars, traffic signal, sea gulls, ships whistle, fog horn, Mission Dolores bells and others are being recorded for use in the final record of San Francisco sounds.

The committee working on the third grade study are monitoring the project as an intregal part of the San Francisco project.

## TRANSCRIPTIONS

A number of new educational transcriptions are available for loan to teachers. A new catalogue is being prepared for distribution in October.

Transcriptions may be borrowed by mail or by calling in person at KALW.

The In-Service class in Utilization is working on ET breakdowns in subject areas and grade levels.

## RECORDING DATES

Schools are requested to anticipate the need for KALW recording facilities as far in advance as possible and to request dates.

Recording may be done at the KALW studios or at individual schools by using the Mobile unit.

## DEMONSTRATIONS

Upon request, members of the KALW staff will be available to speak to teacher PTA groups on Radio Education and to demonstrate receivers, transcription players and sample programs to interested schools. Please call ATwater 2-6042 to arrange dates in advance.

## PRINCIPALS RADIO SURVEY

During the administrative workshop in August 1948, the elementary principals surveyed their use of radio. Some interesting data based upon the reports from 64 elementary schools are as follows:

1. There are approximately 10 classrooms for each radio receiver.
2. There is an average of 1 radio per school
3. 4.5 teachers per school used radio.
4. 70 students per school (average) listened at one time.
5. 1.2 teachers per school used transcriptions.
6. Programs most used were:
   - Schoolcast
   - Standard School Broadcast
   - News - Spelling Bee
   - Symphony - Story time
   - Science
7. Programs most needed were:
   - Science
   - Music
   - Social Studies
   - News
   - Stories
8. Approximately 60% had used KALW shows.
9. A great interest was evidenced in demonstrations, In-Service training and for more teacher-student-KALW programs.

## KALW ON 91.7 MEGACYCLES

Since September 1st, KALW has been operating on a new frequency of 91.7 M.C. A survey is in process to determine the coverage of schools from the present transmitter location. Preliminary results indicate that about 50% of the schools will get no reception or poor reception; in general, schools west of Twin Peaks will experience poor reception. This condition will not be remedied until the KALW transmitter can be relocated at a site near Twin Peaks at a future date.

Schools will receive a survey report, signed by Mr. Nielsen, indicating reception conditions at that school.

## COMMERCIAL PROGRAM LISTINGS

An attempt has been made this month to further tabulate commercial radio programs of educational or preferred entertainment types for in-school or recommended out-of-school listening.

The radio section listings of the PTA, AAUW listings and the U.S.Office of Education FREC bulletins are used as a basis for program selection, with local shows added as they appear.

Indications have been made as to approximate grade level usage wherever possible. The in-service Utilization class is working on this problem.

Suggestions are solicited as to program recommendations.

## LA BOHEME OPERA

On October 8th and 15th the Opera Guild will present two Friday afternoon performances of "La Boheme" for school age children.

In preparation for this event, Mr. Charles Dennis, Director of Music, has prepared and distributed information about "La Boheme" to be used in schools.

KALW will play excerpts from "La Boheme" with commentary each evening, Monday through Thursday, at 7:30 to 7:45 PM, starting on Monday, September 27th, to continue until the final show on October 15th.

## RADIO RECEIVERS

A quantity of new portable classroom receivers are on order and at last report are in the "bid" stage of procurement.

It is hope that receivers will arrive before November 1st for distribution.

## DWIGHT NEWTON SCHOOLCAST

KALW has received permission from KGO to record and use the Schoolcast. This popular show will be aired as follows:

810 KC.....KGO.....M-W-F.....11:30 AM
106.1 MC...Channel 291....KGO-FM...M-W-F.....11:30 AM
91.7 MC...Channel 219....KALW.....T-Th-M..... 9:30 AM

Transcriptions of two (2) programs may be borrowed one week after each broadcast.

## GOLD RUSH DAYS

KQW has granted KALW permission to rebroadcast the CBS-KQW Gold Rush Days show heard over KQW at 6 PM Tuesdays.

This show is scheduled over KALW at 9:15 AM on Wednesdays starting October 6th.

Transcriptions of Gold Rush Days of the current series and an older series voiced by Louise Tabor are available for loan to schools one week after broadcast.
